

Kindergarten

Ernst Reuter School

The Private School of the German Embassy in Ankara

Admission

Children of German or international officials, and representatives of German or international companies (or families in similar situations) will be preferred.

Attending the Kindergarten does not guarantee acceptance into the German School.

By Turkish law, children who are Turkish citizens are required to attend Turkish school.

Educational Concept

Our educational concept follows an open pedagogical curriculum for early childhood ('Infans Concept'). It is based on the latest neuropsychological studies and has been tested and implemented successfully in Germany.

This concept is characterized by educational areas that all children can attend and choose from instead of having designated rooms for each age group.

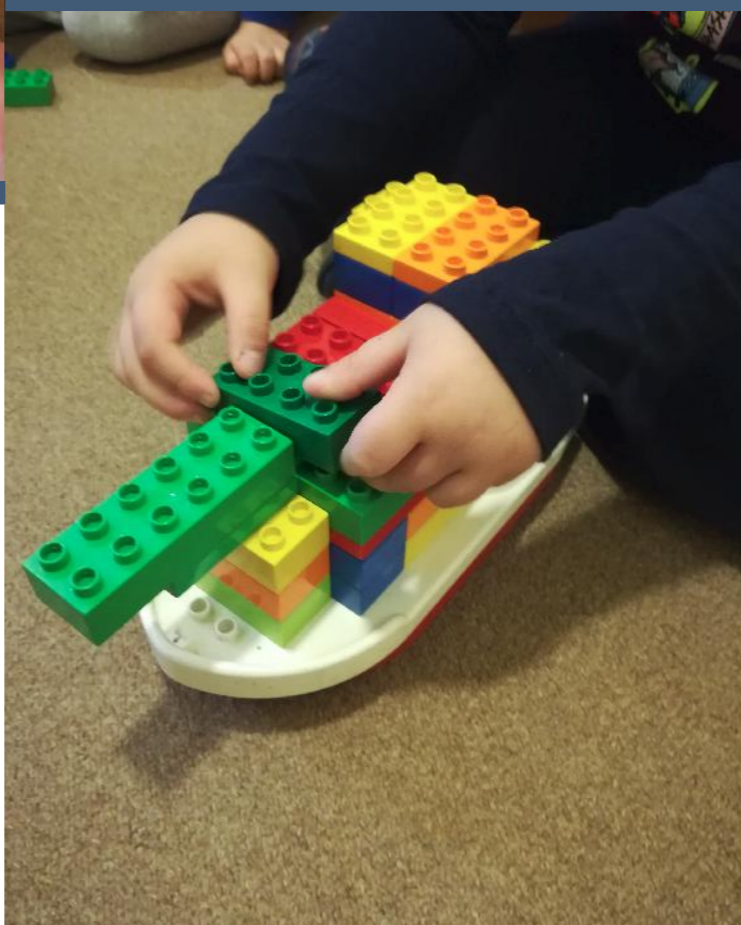

Our school has provided exceptional education for over 60 years.

We follow the German curriculum and speak German exclusively.

A German director and 5 native educators care for 38 children.

We focus on each child individually, give them a lot of time in the open air and offer the following fields of education: language music, physical exercise, arts, science, handcrafts, kitchen activities and free play.

Pre-school children are prepared for entry to the grammar school in cooperation with the grammar school staff.

- Half-day: Monday – Friday 07:30 – 13:30 (no nap)
- Full day: Monday – Friday 07:30 – 17:30
- Freshly prepared, well-balanced lunch and a varied afternoon snack

Transportation is provided by an external transportation company.
